

Fantastic!

Learn English the fantastic way!

Jane Revell and Carol Skinner with Nick Beare and Rachel Finnie

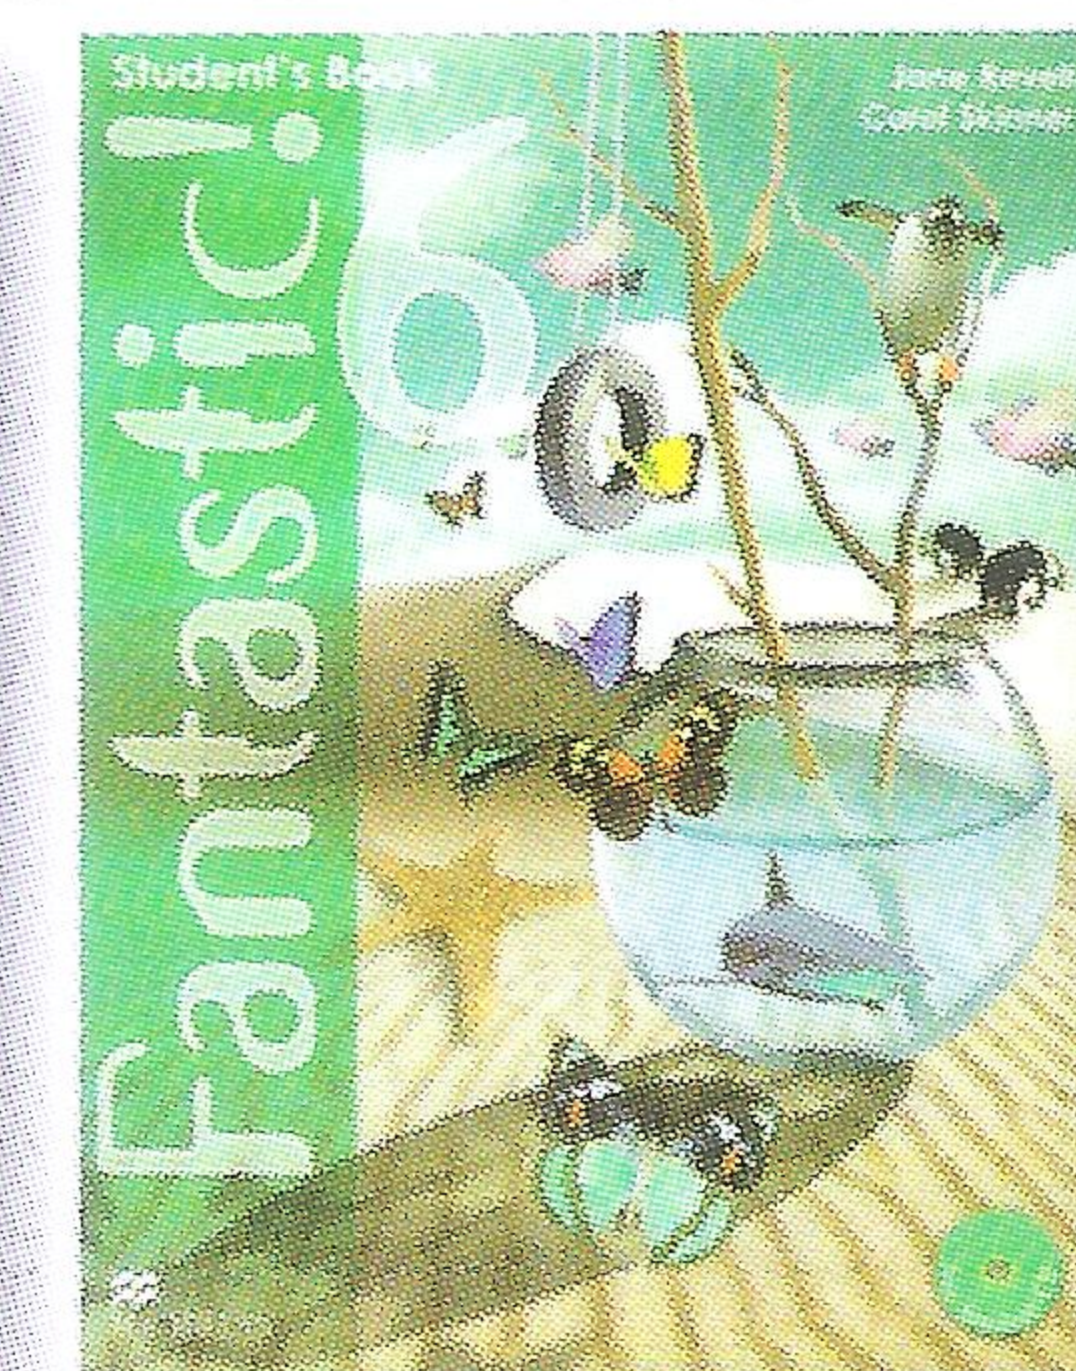

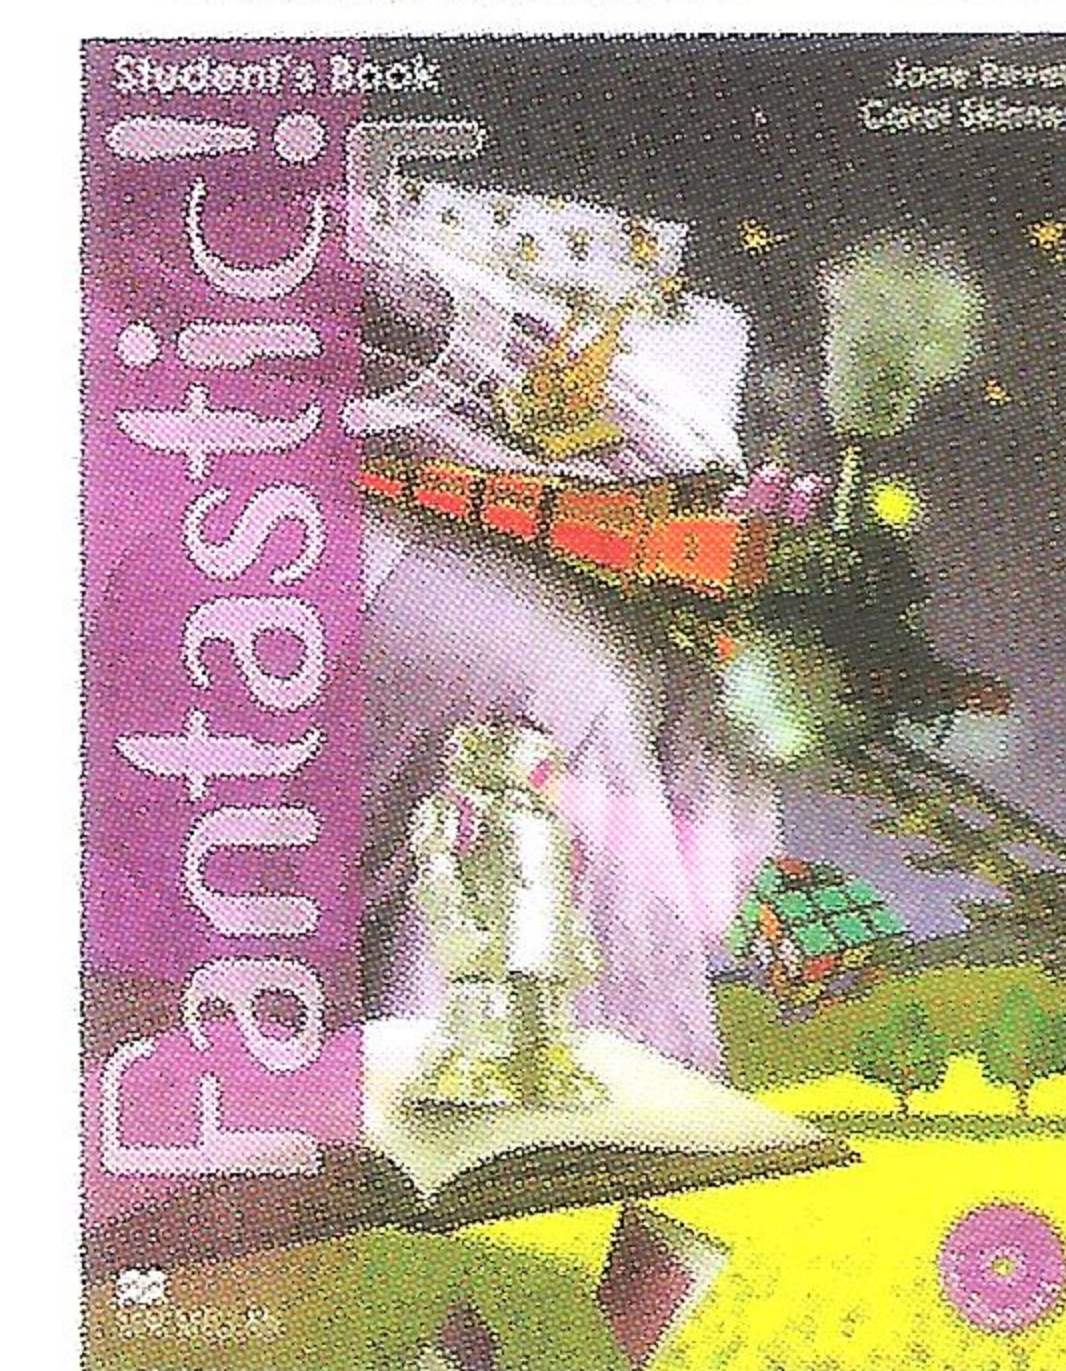

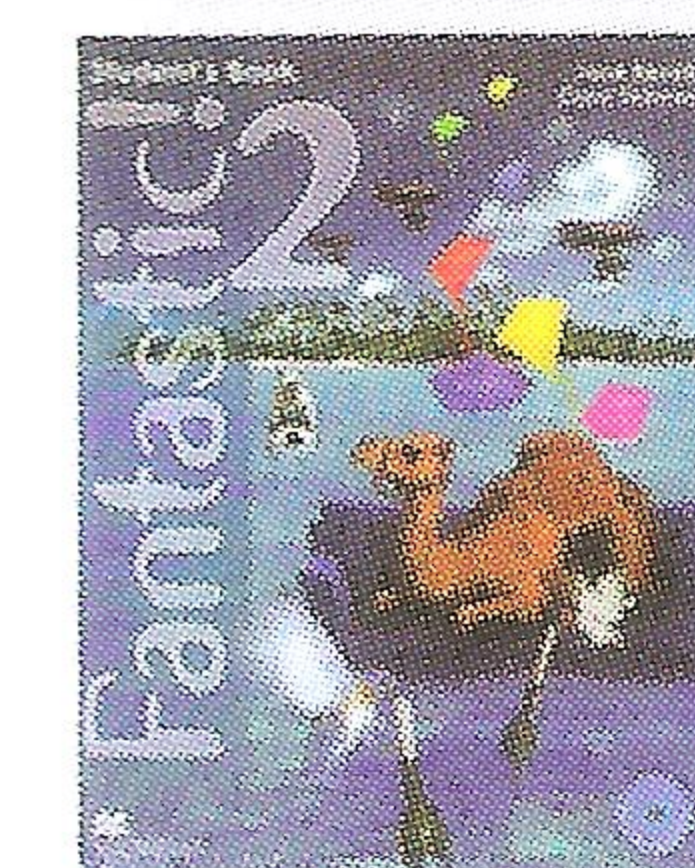

Combining a structured syllabus and an appealing design, this six-level primary course brings the learner and the target language together in a clear, controlled way.

Key benefits include:

- gradual, systematic development of reading, writing, listening and speaking skills, making a complete four-skill course
- extensive listening and speaking skills practice, along with fun pronunciation activities
- a cross-curricular lesson per unit, allowing children to use new language across a variety of different subject areas including history, math and social studies
- helpful extension materials in the **Student's Book Pack**, including a **Values Booklet** to raise learners' awareness of their social roles and responsibilities, and **Grammar Resource Pack** to practise sentence building

Fantastic is colorful and engaging with modern illustrations and interesting, topical material.

Neil Gibson,
Global Language School,
South Korea
